

PETITION

A decision has been made by University leadership to rebrand Barts and The London School of Medicine and Dentistry (BL) to QMUL Faculty of Medicine & Dentistry.

This decision has been made by the QMUL Senior Executive Team with no consultation with Barts and The London Students' Association (BLSA) and against the wishes of students, staff, and alumni who have all raised concerns.

We believe we need to show just how much opposition there is to this decision and so have decided, as a first step, we will petition students, alumni, staff and other allies. We need as many people to read, sign and share the petition on the link below to really amplify the message that students will not allow this to happen.
